

# BAYCOM

A Lifeline in the Moments that Matter

## SIMULCAST SYSTEM FOR COUNTIES

### WHEN A SINGLE TRANSMISSION SITE CANNOT PROVIDE ADEQUATE RADIO COVERAGE FOR YOUR ENTIRE COUNTY

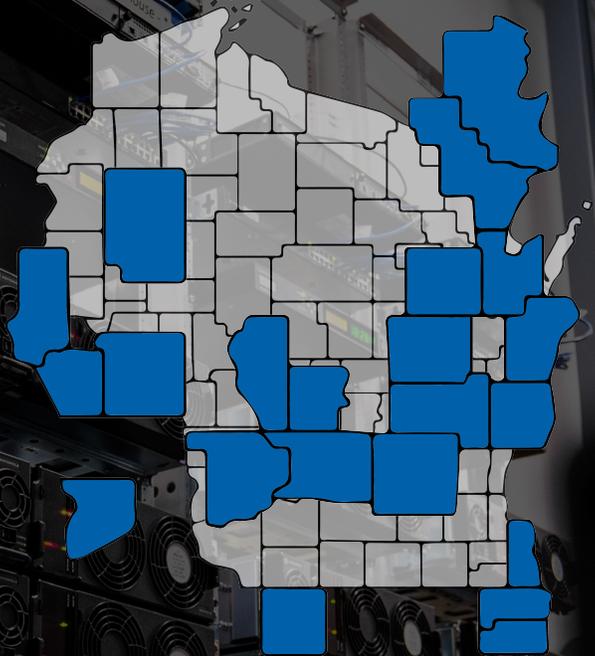

BAYCOM has the engineering expertise to design, stage and implement the advanced, turnkey simulcast system you need to ensure indoor and outdoor communications coverage. Offering expertise ranging from design to equipment purchase, tower consultation and system implementation, BAYCOM is your total solutions provider.

### CENTRALIZED STAGING SYSTEM

BAYCOM is uniquely positioned to design, engineer and test your simulcast system in our centralized staging facility in Madison, WI. Come learn how your simulcast system will work and operate, test to validate your key features and see your investment live before deployment and implementation.

### ADVANTAGES OF BAYCOM SIMULCAST

- Centralized Staging of Your System
- Hands on Training and Testing
- Easy to Use
- Digital and Analog Capabilities
- Seamless Wide-Area Communications
- Industry-Leading Motorola Equipment
- Optimized GPS Timing Accuracy
- Affordable
- Efficient Use of Frequencies
