

SAFETY THAT SIMPLY WORKS SO YOUR RESIDENTS CAN FEEL AT HOME

A modern safety ecosystem for senior living communities- delivered and supported by BAYCOM.

THE CHALLENGE FACING SENIOR LIVING COMMUNITIES

Today's senior living communities must balance resident safety without creating a clinical environment, support staff with limited resources, and prepare for emergencies—often with outdated tools. Safety shouldn't be complicated. It should be reliable.

A SMARTER, SIMPLER APPROACH TO SAFETY

BAYCOM's security ecosystem brings critical safety tools into one easy-to-manage environment—without rip-and-replace, complex learning curves, or pressure to do everything at once. Just scalable solutions that meet you where you are today and grow with you tomorrow.

WHAT THAT MEANS FOR YOUR COMMUNITY

For Residents

- Faster response during emergencies
- A safer environment without feeling clinical
- Greater peace of mind and trust

For Staff

- Clear, reliable communication at the push of a button
- Less stress in critical moments
- Tools that support daily workflows

For Leadership

- Improved safety visibility and coordination
- Scalable, future-ready solutions
- Confidence that systems will work when needed

BAYCOM

ONE ECOSYSTEM. MANY WAYS TO SUPPORT SAFETY.

Managed &
Support Services

Depending on your needs, solutions may include:

- Reliable staff communication through two-way radios
- Emergency alerting and incident response with panic buttons, smart sensors, mass notifications, and automated alerts
- Video and access awareness using cameras, access control, and real-time visibility in shared spaces
- Centralized oversight through integrated management platforms that connect and manage safety systems in one place

All designed to work together—seamlessly.

WHY BAYCOM?

BAYCOM is more than a technology provider—we're a long-term partner to **healthcare and senior living communities.**

- Deep experience in healthcare and senior living environments
- Local teams who understand your needs
- Proven, state-of-the-art technology
- Ongoing support before, during, and after implementation

Our promise is simple:

- We've done the research.
- We have the experience.
- We are in this together.

It Will Work.

Let's Talk About What Safety Looks Like for Your Community.
