Panasonic CONNECT

Let's note™

# AI-ready. Lightweight. Durable. Built for Work Anywhere.

The Panasonic Let's note™ FC7 is a premium commercial business laptop designed for hybrid workers who need AI-ready productivity, reliable mobility, long battery life, and easier IT management.

FC7 builds on the core strengths of Let's note, including lightweight design, a user-replaceable battery, Japanese engineering quality, and business-focused usability, while adding a modern AI PC platform powered by Intel® Core™ Ultra Series 3 and Copilot+ PC capabilities.

## ACCESSORIES

### Batteries

- 11.58V, 4772mAh min
- SKU: CF-VZSU2KW

### AC Adapter

- 100 – 240V
- SKU: CF-AA5713A4M

Panasonic CONNECT

Let's note™

## Professional Services

To fully optimize the value and functionality of the Let's note™ FC7, Panasonic Connect offers a suite of services designed to enhance productivity, ensure seamless deployment, and provide peace of mind:

- Extended Warranty Packages: Extend your standard warranty up to two additional years, stretching coverage to maximize your return on investment. Extending your warranty delivers peace of mind, uninterrupted worker productivity, and significant reduction in out-of-warranty repair costs and IT workload.
- Deployment Services: Take the load off of your IT teams while providing peace of mind that your devices arrive in field-ready condition – fully operational and ready to work. From capture, loading, and configuration of images to supply chain service options we have you covered.
- Engineering Services: Minimize implementation challenges with our suite of engineering services. From image creation to operation system deployment, barcode configuration support, or any other mobility related engineering task, we have time and scope-based services to support your business.
- Software Stack: Go beyond MDM to get real-time visibility into the health of all devices and applications across your entire fleet.
- Further secure your devices against cyber security threats, confirm they are being used as intended, and recover lost or stolen devices. With our analytics and security software platforms you can have confidence that you are getting a ROI out of your Let's note™ solution.
- Hardware-as-a Service: Utilize OPEX funds with customized options to save money and time with the purchase of Let's note™ laptops combined with services, software, and accessories.
- Panasonic recognizes that one size does not fit all and each customer has a unique set of skills and needs. As such, Panasonic ProServices can offer each customer the right solution to best suit their particular situation. Here are some of the most popular items, but please contact your Panasonic representative or go to the ProServices website for more services and information.

## Deployment Bundles

**CF-SVCLNBRZO1**

Let's note Bronze Deployment Option 1- Validate customer image on test device; Receive new device, one time load of the approved customer image, apply custom BIOS settings, install and charge battery, apply asset tag; Re-box with customer documents and custom carton label; Provide reporting with: Model, serial and asset tag information; Insured storage for up to 60 days. Option 1 deployment service applies to a single ship to location and shipping date for multiple devices.

**CF-SVCLNBRZO2**

Let's note Bronze Deployment Option 2- Validate customer image on test device; Receive new device, one time load of the approved customer image, apply custom BIOS settings, install and charge battery, apply asset tag; Post install config (max 5 mins) and diagnostic test; Image retention; Re-box with customer documents and custom carton label; Provide reporting with: Model, serial and asset tag information; Insured storage for up to 60 days. Option 2 deployment service can have multiple ship to locations and shipping dates.

## BIOS Customization

BIOS settings can be customized to show client logo on bootup or configured to restrict access, enable or disable audio or wireless capabilities as well as restricting media components such as card readers, secure digital flash, fingerprint readers, Bluetooth, etc. There is a minimum of 50 units for the BIOS configuration service.

- BIOS Custom Splash Screen and/or Configuration CF-SVCBIOS1

Panasonic CONNECT

Let's note™

## Extended Warranty

If this coverage is purchased, the serial numbered unit is entitled to the extended manufacturer warranty coverage with the exception of the battery for which a separate coverage program is available. The cost of labor, parts, and overnight shipping are included in the price of the Extended Warranty Program.
