

DNC 2020:

LET US HELP YOU SHINE!

When the world's attention is focused on Milwaukee during the Democratic National Convention next summer, businesses like yours will have a remarkable opportunity to shine. BAYCOM is ready to help you make a great impression.

BAYCOM is a Milwaukee-based premier reseller and service provider of wireless voice and data communications and video surveillance solutions for businesses, schools, state and local government, and public safety organizations across the United States. Our mission is to keep communities and workforces secure and connected by providing technology that drives efficiency and safety.

Our entire community will be in the spotlight during the convention, and as a Milwaukee-based business, we're committed to helping our customers deliver experiences visitors will want to write home about.

WE'LL HAVE YOUR BACK.

So you can put your best foot forward.

As you prepare to welcome and serve some of the 50,000 visitors expected to attend DNC 2020, the need for clear, simple and reliable team communications will undoubtedly be a critical part of your plan.

WE CAN HELP YOU:

- Design a communications plan for the four-day event
- Expand your fleet of two-way radios through the purchase or rental of additional units
- Ensure your team can communicate reliably (and securely, if needed) with best-in-class equipment, such as Motorola's WAVE Two-Way Radio TLK100 with push-to-talk capability that runs on a cellular network
- Enhance your physical security through video surveillance and access control systems

Learn more about us on the BAYCOM website. Or when you're ready to start planning for DNC 2020, give us a call at (414) 546-2011.
